

ICE Early Careers Network East Midlands: Derby Riverside Flood Alleviation Scheme Site Visit

Join the ICE Early Careers Network East Midlands for a site visit to a new flood alleviation scheme in Derby city centre.

The Derby Riverside scheme is approximately 1km of new flood defences designed to protect around 670 properties and commenced in May 2025.

The £35M project is the second phase of the Our City, Our River project, a scheme led by Derby City Council on behalf of the Environment Agency. The project follows previous flood defence schemes and aims to extend protection to a further part of the city.

PPE is required as follows:

- Hard hat
- Long-sleeve hi-vis top
- Hi-vis trousers
- Glasses
- Gloves
- Safety Boots
