

East Midlands President's Visit: We're on the road to...Melton Mowbray

It is not every day you get to design and build a brand-new road and after ten years in the making, the North and East Melton Mowbray Distributor Road opened in May 2026.

This event forms part of the ICE President David Porter's annual visit to the region. Hear from the County Council designers, contractors and young people who have delivered the scheme.
